Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments shall be submitted on or before **[INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN FEDERAL REGISTER]**. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email: PRA@fcc.gov and to Cathy.Williams@fcc.gov.

Total Annual Burden: 64,561 hours.

Total Annual Cost: \$13,213,975.

Needs and Uses: The FCC adopted an Order on Reconsideration and Second Report and Order, FCC 16-55, that amends rules established in the First Report and Order, FCC 15-47, for commercial use of 150 megahertz in the 3550-3700 MHz (3.5 GHz) band and a new Citizens Broadband Radio Service, on April 28, 2016, published at 81 FR 49023 (July 26, 2016). The rule changes and information requirements contained in the First Report and Order are also approved under this Office of Management and Budget (OMB) control number and have not changed since they were last approved by OMB.

The Commission also received approval from OMB for the information collection requirements contained in FCC 16-55. The amendments contained in the Second Report and Order create additional capacity for

wireless broadband by adopting a new approach to spectrum management to facilitate more intensive spectrum sharing between commercial and federal users and among multiple tiers of commercial users. The Spectrum Access System (SAS) will use the information to authorize and coordinate spectrum use for Citizen Broadband Radio Service Devices (CBSDs). The Commission will use the information to coordinate among the spectrum tiers and determine Protection Areas for Priority Access Licensees (PALs).

The following is a description of the information collection requirements for is approved under this collection:

Section 96.25(c)(1)(i) requires PALs to inform the SAS if a CBSD is no longer in use.

Section 96.25(c)(2)(i) creates a default protection contour for any CBSD at the outer limit of the PAL Protection Area, but allows a PAL to self-report a contour smaller than that established by the SAS.

These rules which contain information collection requirements are designed to provide for flexible use of this spectrum, while managing three tiers of users in the band, and create a low-cost entry point for a wide

array of users. The rules will encourage innovation and investment in mobile broadband use in this spectrum while protecting incumbent users. Without this information, the Commission would not be able to carry out its statutory responsibilities.
